

B RIGADA ESPECIAL

SOLUCIONS DE FLORA I FAUNA

BESFF (Special Brigade for Flora and Fauna Solutions) is a participatory street walkabout packed with humour, where a rather unusual urban brigade appears to "solve" any incident involving the city's flora and fauna.

Using absurd protocols, improvised inspections and unexpected solutions, the brigade strives to protect urban decoration and public safety... or at least tries to. Suspicious plants, rebellious pigeons or overly expressive trees can all trigger an emergency intervention in which the audience becomes an accomplice, assistant, witness or even part of the problem.

A lively, unpredictable experience that transforms public space into a vibrant playground full of interaction, complicity and delightfully organised chaos.
