

● Fadunito presents
XISBLUFA

Xisblufa Transport arrives to unload and deliver the day's parcels. An easy job, right? Well, not exactly.

With impossible boxes, mistaken deliveries and logistics getting completely out of hand, the working day soon turns into absolute chaos.

A non-verbal clown show featuring visual and physical comedy with universal appeal, where audience participation is essential. Before they even realise it, spectators become part of the action and end up as the true protagonists of the performance. **Suitable for all audiences.**
